Youth Leagues USA (YLUSA) Is Now GroupNet Solutions

Thanks to the support and dedication of our valued clients, Youth Leagues USA has outgrown our name and is changing it to [GroupNet Solutions](http://www.groupnetsolutions.com). The name change also includes a shift in branding, marketing and increasing our social media presence. When we started our business, 15 years ago, the majority of our clients were youth and recreational leagues. However, we've grown to support over 1.9 million registrants annually which include amateur (adult) sports and non-sport event registration for non-profit organizations, corporations and government agencies of all sizes. Therefore, we needed a name and branding strategy that reflected the Registration Solutions we offer to everyone. Over the next few months you'll begin to see invoices, statements and communications that carry our new logo and name. Please take note of these as we change from Youth Leagues USA to GroupNet Solutions.

When visiting our website, www.groupnetsolutions.com, you will find new social media and communication tools including links to our Facebook, Twitter and blog sites. These tools will ensure faster and more efficient communication regarding services, product enhancements and new opportunities coming during the next few months. You will also be able to post comments, ask questions and interact with other users and GroupNet Solution employees.

Thank you again for your support over the years and we look forward to serving you for many more. Please be sure to follow us at:

- Twitter is: <http://twitter.com/#!/GroupNetS>
- LinkedIn: <http://www.linkedin.com/company/2431977?trk=tyah>
